Bottoms Up

Champagne Dreams by Drone

In a seamless blend of luxury and high tech, groups who meet at Casa Madrona Hotel & Spa in Sausalito, California, can now get their bubbly via drone. The special delivery service is offered to those holding meetings and events onsite, or who buy out Casa Madrona's posh Mansion—which has 11 rooms—or just the Mansion's spectacular, 5,000-square-foot Alexandrite Suite. After you place an order, a custom-built octo-copter drone will drop off up to three bottles of your choice of chilled champagne on the deck of the suite. Rates for the suite start at \$10,000 a night and the cost of the drone butler is extra, but imagine how good the bubbly must taste while you and your pals take in stunning views of Richardson Bay and the San Francisco skyline.
